It has been decided by the Government to take additional measures to curb smuggling of contraband from this train. These measures include 100% manual checking of baggage enforcing baggage restriction augmenting the security set-up, sanitising of platforms and dispensing with the services of coolies and strengthening of vigilance mechanisms to prevent corruption amongst the staff deployed at Attari Railway Station. As part of an over-all plan, it is also proposed that Bureau of Immigration will take over the Immigration and Registration functions at Attari Railway Station. This will help in checking the activities of anti-national elements from across the border as the personnel of Bureau of Immigration are better trained and equipped for such functions.
